SAM OSBORN MEMORIAL CAMPAIGN

Benefiting Barrier-Free Field Construction

SAM'S GREAT STORY

Sam was a prominent figure at many of his siblings' sporting events, but thrived when he had the opportunity to play. At 6 months old, Sam's journey to a diagnosis of congenital muscular dystrophy began. The progressive disease debilitates the body yet leaves the mind intact. As the disease affected him physically, Sam responded by becoming more endearing and unbreakable.

He carried a level of courage few ever could. He never resented his disease and instead focused on the opportunities his differences afforded him.

ABOUT THE CAMPAIGN

We are funding the creation of a barrier-free facility at the Elkhorn Athletic Association Sports Complex.

With your generous support, we will be able to celebrate Sam while watching many other children with adaptive needs compete and enjoy athletics for years to come.
